

# Invisipure Sky Cool Mist Ultrasonic Humidifier

Model IP-4030

**READ AND SAVE THESE IMPORTANT INSTRUCTIONS**

## **WHEN USING ELECTRICAL APPLIANCES, BASIC SAFETY PRECAUTIONS SHOULD ALWAYS BE FOLLOWED TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK, AND INJURY TO PERSONS, INCLUDING THE FOLLOWING:**

1. Check the household voltage to ensure it matches the unit's rated specification before operating.
2. Children should be supervised to ensure that they do not play with the appliance.
3. DO NOT add water from moisture outlet directly, or it will damage the unit.
4. Do not allow children to play with any product packaging, such as plastic bags.
5. To avoid fire hazard, NEVER put the cord under rugs, near heat registers, radiator, stoves, or heaters.
6. DO NOT place humidifier near heat sources such as stoves, radiators, and heaters. Do locate your humidifier on an inside wall near an electrical outlet. The humidifier should be at least 10cm away from the wall for best results.
7. Do not attempt to refill humidifier without unplugging the unit from its electrical outlet first.
8. DO NOT operate any appliance with a damaged cord or plug, after the appliance malfunctions, or if it has been dropped or damaged in any manner. Return appliance to manufacturer for examination, electrical or mechanical adjustment, or repair.
9. DO NOT allow the moisture outlet to directly face the wall.
10. NEVER tilt, move, or attempt to empty unit while it is operating.
11. Shut off and unplug before removing the water tank and moving the unit.
12. DO NOT attempt to repair or adjust any electrical or mechanical functions on this unit. Doing so will void your warranty. The inside of the unit contains no user serviceable parts. All servicing should be performed by qualified personnel only.
13. Do not plug in the cord with wet hands: electric shock could result.
14. NEVER use detergents, gasoline, glass cleaner, furniture polish, and paint thinner, or other household solvents to clean any part of the humidifier.
15. Do not pour water in any openings other than the water tank.
16. Excessive humidity in a room can cause water condensation on windows and some furniture. If this happens, turn the humidifier OFF.
17. Never place housing under water flow or immerse in liquids.
18. DO NOT use essential oils, hot water, and other additives. For best result, use filtered or distilled water only.
19. DO NOT operate without tank or if leaking occurs.
20. Clean and dry unit after use. Always plug and unplug the unit with dry hands to avoid electric shock.

## CONSUMER SAFETY INFORMATION

This is an electrical appliance and requires attention when in use. If moisture forms on the walls or windows of the room, turn off the humidifier. The room already has plenty of humidity and additional moisture may cause damage. Do not block air inlet or outlet.

## CORD AND PLUG INSTALLATION SAFETY INSTRUCTIONS

The length of cord used on this appliance was selected to reduce the hazards of becoming tangled in or tripping over a longer cord. If a longer cord is necessary an approved extension cord may be used. The electrical rating of the extension cord must be equal to or greater than the rating of the humidifier. Care must be taken to arrange the extension cord so that it will not drape over the countertop or table top where it can be pulled on by children or accidentally tripped over.

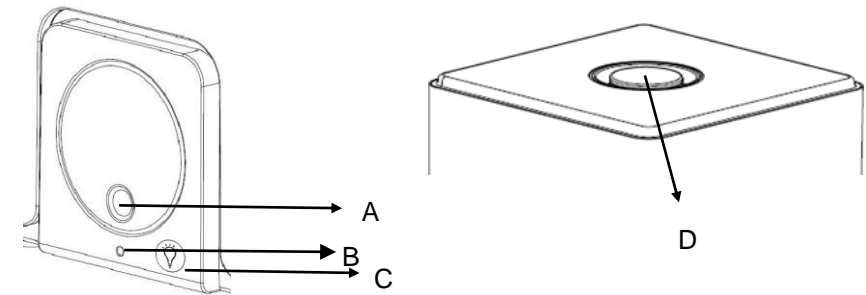

## PRE-OPERATING INSTRUCTIONS

1. Be sure the humidifier is OFF and disconnected from the electrical outlet.
2. Place on a level surface or floor.
3. Filling the water tank
  - Remove the water tank by holding the handle and lifting straight upward. (See figure 1)
  - Twist off the tank cap located on the bottom of the tank by turning counter clockwise and fill the water tank with cool, fresh water. **DO NOT FILL WITH WARM WATER AS THIS MAY CAUSE LEAKING.**
  - After filling the tank, replace the tank cap by firmly turning clockwise and then replace the water tank on the base. The tank will immediately begin to empty into the base.
4. Plug the power cord into an electrical outlet.

## MAIN FEATURES

- Handle for easy carrying.
- Compact portable design with transparent tank for easy water level viewing.
- 360 degree moisture output to direct mist in any direction
- Easy to use moisture control knob for precise mist output
- Controllable night light with dim/bright for easy using
- Auto Shutoff when water level is low or out
- Higher mist output with improved Japanese motor
- Quiet operation is great for children and light sleepers
- 1 gallon tank for up to 40+ hours of continual mist output on the lowest setting
- Waterless shows with red indicator light next to knob for the low water level

## OPERATING INSTRUCTIONS

### A) Power and moisture control knob

- Press the knob A clockwise to turn the humidifier on and increase the mist emission.
- Press the Knob A anticlockwise to reduce the mist emission and turn the humidifier off.

### B) Indicator light for power or waterless

- Indicator light for power on: Green
  - Indicator light for waterless: Red.
- If the indicator light becomes Red, please kindly refill the water as per filling water tank instructions promptly.

### C) Night light

The night light C can be controlled only when power on

- 1<sup>st</sup> press: Night light is dim.
- 2<sup>nd</sup> press: Night light is bright.
- 3<sup>rd</sup> press: Night light OFF

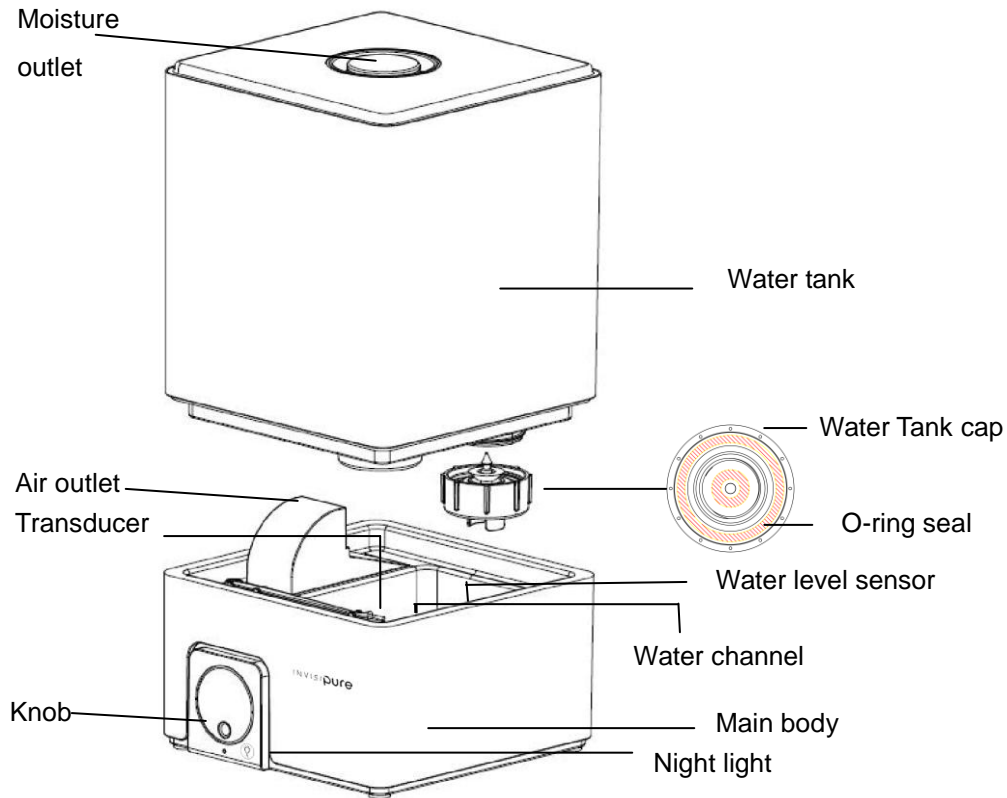

### D) Mist outlet

- By rotating 360 degree mist outlet, the mist shape is much more compact & vertical.
- Aim the mist outlet away from walls and furniture.

## ATTENTION!

If condensation forms on your windows or walls, please turn the humidifier off.

## DESCRIPTION OF THE HUMIDIFIER

(Figure 1)

## TECHNICAL DATA

- Product name: Invisipure Cool Mist Ultrasonic Humidifier
- Input voltage: AC 120V-240V, 50-60Hz
- Moisture capacity: 12 oz/h / 350ml/h
- Water tank volume: 1 gallon / 3.8 L
- Rated power: 30W
- Dimension: 6.7" x 6.7"x 11.2" / 170 x170 x285 mm
- Weight: 2.2 lbs / 1.00kgs
- Coverage Area: 325 sq ft / 30 m<sup>2</sup>

## CLEANING AND MAINTENANCE INSTRUCTIONS

Lack of humidity can dry out your skin and can cause irritated nasal passages, frequent colds, sore throats, and other problems. Humidifiers provide relative humidity to protect your health. To get the most of the benefit from the humidifier and avoid product failure, follow all maintenance instructions carefully. If the recommended care and maintenance guidelines are not followed, micro-organisms may be able to grow in the water within the humidifier.

### DAILY MAINTENANCE

- Before cleaning, turn the power to OFF and unplug the unit.
- Lift the tank off the humidifier.
- Carry the water tank to a sink; drain and rinse the water tank thoroughly to remove any sediment and dirt. Wipe clean and dry with a clean soft cloth or paper towel.
- Refill the water tank with cool water.

### WEEKLY MAINTENANCE

- Add one cup of white vinegar to the basin for approximately 15 minutes, then scrub off any scale in the basin, especially in the transducer, with a soft brush.
- Remove the scale and white vinegar solution with a clean soft cloth.
- Refill the water tank with cool water.

### CAUTION OF MAINTENANCE

- Make sure main body is never submerged into water
- Do not use any solvents or aggressive cleaning agents to clean the humidifier.
- Clean the inner parts with a soft cloth.
- Only use soft-bristle or equipped brush to clean the transducer. This should be done once a week.
- Change the water in the water tank at least once a week.

### STORING THE HUMIDIFIER

- Clean the humidifier as described earlier and dry thoroughly.
- Preferably store the humidifier in its original box.
- Avoid high temperatures.

If your humidifier is not working correctly please check the following causes:

TROUBLE	PROBABLE CAUSE	SOLUTION
Humidifier does not operate.	Power cable not plugged in	Plug in power cable.
The power light is on, but there is no mist	No water in water tank	Fill tank with water
The water mist produces an unpleasant smell.	Dirty water or the water is left in the water tank for too long.	Open the water tank and leave it for 12 hours at shady and cool place.
		Clean the water tank and change the water.
The power light is on, but the humidifier doesn't work	Too much water in the basin.	Turn off the unit and remove water from basin. Check if O-ring seal in the water cap is seated properly. Check for leaks before use.
The output volume of the mist is low	The transducer is dirty.	Clean transducer by a soft brush
	Water is too dirty or water kept too long in the tank	Clean water tank and change the water
Abnormal noise	Resonance caused when water level is too low.	Fill water into water tank
	Unit is on an unstable surface	Move the unit to a stable flat surface
Very tight tank cap	Cap over tightened	Add liquid soap to O-ring on the water cap to ease opening for future use.
Water leaking	Water tank gasket not seated properly or water tank/basin has been compromised.	Check if O-ring seal on the water cap is seated properly in the water cap to prevent leaking. Check for leaks before use. If leak continues, do not use. Unplug and contact manufacturer.

## WARRANTY & SERVICE

We guarantee the unit TO BE free from defects in material or workmanship for a period of one (1) year from the date of purchase.

Operating this unit with an adapter other than the one supplied or any attempts made to service or modify the unit, will VOID THE WARRANTY.

For your convenience, please record the complete model number and the date of purchase below, and attach your receipt as proof of purchase.
